Beer glass collection

How to make creamy head

Tilt the glass a bit and pour the beer gently down the side of the glass. Touching the sand blasted area, the beer makes creamy head.

※ Wash and dry the sand blasted part for better creamy head.

Cap/Silicone China

Cute silicone cap is easy to use!

Silicone cap is easy to put on and remove, allowing for various uses with appropriate sealing. Use it for little objects, for spices, or why not for homemade dressing? Just the right size for the refrigerator door shelf.

How to attach the cap Try to attach to get better tightness.

- 1 First, put the silicone cap on the bottle mouth. Make sure the bottle is stable. *The mat side of the silicone cap should be top surface.
- 2 Press on the middle of the cap, and with the other hand pull the edges of the silicone cap to release the air.
- 3 When all the air is out, keep pressing the middle of the cap and re-attach the cap.
- 4 Release the pressure: indented cap shows better air tighted.

*Note: this is not a complete air tight and not leakfree product.

DOOR POCKET STOCK

Door Pocket Stock fits neatly into the refrigerator door shelf for storage. Choose from three sizes according to your needs.

History of Aderia Glass Jar

- 1962 Liquor Tax Act revised Homebrewed fruit liquors become legal. In the same year, fruit liquor jars are produced by an automatic bottle-making machine. #3 (2-liter), #5 (4-liter) sizes launched in October.
- 1963 #7 (5-liter) size launched in October.
- 1971 Jar with resin handle launched. Tabletop fruit liquor jar (1.8-liter size) launched. (1/3 size of #5)
- 1972 Printed bottles launched.
- 1973 Ladle and funnel set added. (not included now)
- 1976 Large #10 (8-liter) jar developed and launched.
- 1982 Spout is included in cap for first time.
- 1996 1.5-liter, 2.2-liter handle fruit liquor jar launched. Technology of shaping handle with jar improved usability.
- 2003 2-liter tall bottle launched. Convenience further improved by a jar designed to fit in the refrigerator pocket.
- 2012 "Reissued Glass Jar" launched, commemorating 50th anniversary of the Aderia fruit liquor jar.

How to make Homebrewed Plum Liquor

Ingredients Plums1kg
Sugar candy0.5~0.8kg
Distilled liquor (35 degrees)1.8ℓ
(The plums should be chosen in good-quality, unbruised and similar sizes are recommended.)

Directions

- ① After rinsing the plums, take out the stems and dry each plum with a cloth.
- ② Place plums and sugar candy (or honey) alternately in the jar, and finally pour distilled liquor carefully in and close the lid.

Brewing time

Shake the jar gently at intervals to melt the sugar. A lovely amber-colored plum liquor will result in two or three months; however, because plum liquor is slow to mature, it will taste better if left for at least a year. The plums can be taken out after five months to a year.

※ You can eat the plums just like that after removing them, or you can use them for plum jelly, plum jam, stewed plums, plum and herb sushi, or for removing fishy smell.

※Ingredients are for a 4L jar.

Cute pink inner cap

The 1L (707), 2L (705), and 3L (731) Aderia Fruit Liquor Jar have a pink inner cap, making them cute even without the lid on.
※ 1.2L (709) and 2L (710) Aderia Fruit Liquor Jar do not have a pink inner cap. Sliding inner lids are used.

How to make Sangria

Ingredients Red wine360mℓ
100% apple juice150mℓ~250mℓ
(Amounts of liquid can be adjusted according to amounts of fruit)
Lemon1/2
(Wash the peel carefully and slice or cut into small chunks)
Other cut fruits as desiredAs needed
(Try half a peeled grapefruit, or a canned peach compote with syrup)

Directions

- ① Place the cut fruits in the Aderia Fruit Liquor Jar.
 - ② Pour in the red wine and juice, and that's all.
- ※ Enjoy sweet sangria with chilled.

※Ingredients are for a 1L jar.

ADERIA GLASS JAR

Features:
For 4 Your Convenience !!

Easy Carrying
The broader handle allows you to carry comfortably.

Easy Attaching & Removing
Removable handle is for easy wash and hygienic use.

Easy Pouring
Inner cap has spout attached to pour easily from the jar.

Easy Washing
The wider mouth allows you to wash inner surface easily.

Certification system for long-term storage fruit liquor bottles

A "certified sticker for long-term storage fruit liquor bottles" has been developed to make sure that a fruit liquor bottle is safe and secure for long-term use. The certified sticker is stuck only to "long-term storage fruit liquor bottles" certified by the Glass Manufacturers' Association of Japan.

This is the certificate of the products with guaranteed quality.

Glass Manufacturers' Association of Japan

PET BOTTLE SHAPE GLASS JAR

Inside View

ZERO R

CONCEPT

The molten glass particles have the tendency to gather round; therefore, even though molded, edges of glassware will be roundish. ZERO R tumblers eliminate round edges to the utmost limit of sharpness by grinding the both surfaces of the openings and the bottoms. This product is form by machine first and finished manually to express beautiful sharp lines.
