

Double F, FF

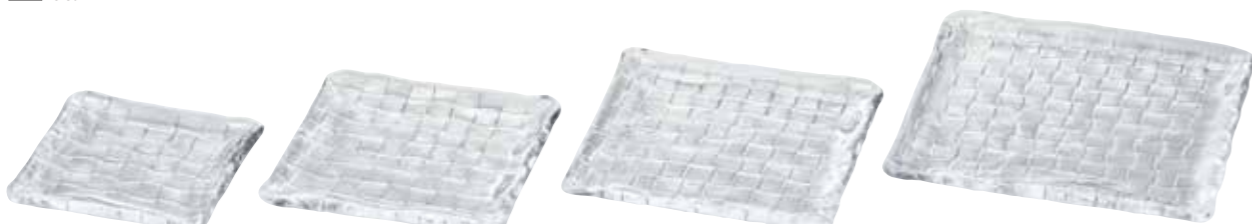

Hokuyo Glass Co., Ltd., established in Aomori 1949, was producing "Ukidama", glass- fishing floats, at the beginning of the business. Once "Ukidama "drifted ashore on the west coast of America, beachcombers found carved design "北 ", meant the company initial in Japanese, and the beachcombers called it Double F, FF. Ukidama was treated as precious item.

Today, their traditional glassblowing skills have been uninterruptedly taken over by younger generations. Their craftsmanship brings out beautiful glassware.
